VEGGIMINS

True Vegan™ Collagen - Real Beauty, 100% Plant-Based

Collagen is essential forfirm, hydrated skin, strong nails, and healthy, shiny hair, but traditional collagen supplements rely on bovine or marine sources. Veggimins has pioneered a plant-powered breakthrough with True Vegan™ Collagen, offering real collagen support through innovative botanical and fermentation technologies. Our True Vegan™ Collagen line: a trio of advanced formulas that deliver real, clinically studied collagen support from 100% vegan sources.

True Vegan™ Collagen Powder

Revolutionary Hibiscus Technology

- We source only the finest VC-H1® hibiscus blossoms—wild-crafted in pristine climates and gently extracted via a proprietary hydrolysis process. This yields plant glycoproteins and amino acids molecularly matched to animal collagen, delivering the same structural support without any animal-derived ingredients.

Clinically Potent 1800 mg Dosage

- Each daily serving packs a full 1800 mg of ultra-concentrated hibiscus extract—one of the highest plant-based collagen equivalents on the market—to help maintain skin firmness, elasticity, and youthful resilience.

Triple Antioxidant Defense

- Rich in anthocyanins, polyphenols, and flavonoids, hibiscus brings powerful free-radical protection that helps support skin's natural barrier, for radiant tone, reduced appearance of fine lines, and stronger hair and nails.

Natural Moisture Lock

- Infused with hibiscus' own Natural Moisturizing Factors, it helps skin retain optimal hydration—so your complexion stays supple and dewy all day long.
